Group Vehicle & Driver Form

We rely on worksite leaders to transport their team to and from the worksites, shower facilities, gym, evening activities and free time events. In order to most efficiently organize this process, we ask that you inform us of your driver(s) and vehicle(s) information before you arrive. Please list all the vehicles that you are bringing with you to the Project and the eligible drivers for each vehicle. Please make sure that this information is accurate, as we will assign work teams and drivers based on this information. Please take into account any van seats that may be removed for luggage or any other modifications that might affect seating. Van drivers will only be responsible for transporting students from your group with the addition of a staff member from the Philadelphia Project.
